**UNITED STATES' NOTICE OF INTENT UNDER FRE 902(13) AND 902(14) TO OFFER  
CERTIFIED RECORDS GENERATED BY AN ELECTRONIC PROCESS OR SYSTEM  
AND CERTIFIED DATA COPIED FROM AN ELECTRONIC DEVICE, STORAGE  
MEDIUM, OR FILE INTO EVIDENCE**

The United States of America, by and through undersigned counsel, respectfully provides notice that it intends, pursuant to Federal Rules of Evidence 902(13) and 902(14), to offer into evidence the certified records generated by an electronic process or system and certified data copied from an electronic device, storage medium, or file. The government seeks to introduce a selection of documents (identified in the certifications and listed below) from the Drousys System. The Drousys System was an off-book communications system utilized by Odebrecht S.A.'s Division of Structured Operations. The government obtained a forensic copy of the Drousys System from Odebrecht S.A. Odebrecht S.A. hired Forensic Risk Alliance ("FRA"), a global market leader in regulatory compliance obligations, litigation, and multi-jurisdictional investigations, through counsel, to forensically copy the Drousys System and ultimately provide forensic copies of the Drousys System to the government. The two attached certifications describe the manner in which the Drousys System was forensically copied by FRA and transmitted to the government. The certifications further attest that the exhibits listed in the certifications

come from that forensic copy. Additionally, witnesses who are the senders and recipients of the documents in question, will testify regarding the documents in question.

Counsel for the government has conferred with counsel for the defendant and the defendant will not stipulate to the authenticity of these documents. In an effort to move the trial forward efficiently and limit the number of witnesses called to testify on purely foundational issues, the government hereby files this notice and requests the Court take notice of the authenticity of the documents identified in the certifications (and listed below).
